

INFORMATION SEASON 2020 - LE MANS - SANITARY PROTOCOLS

The global health situation, linked to the Covid-19 coronavirus, leads us to respect new rules in compliance with the prescriptions issued by the health authorities.

As a reminder, the Fun Racing Cars are a closed-door event, bringing together between 400 and 600 people per day throughout the paddock, depending on the final number of entrants. Within the framework of the regulations applicable to us, the FRC, under the responsibility of M3 organisers, recommend a series of preventive measures which are presented below:

- individual or group entry by car through the main entrance using the digital code
- health and social distancing rules displayed throughout the site
- provision of hydro-alcoholic gel: in the M3 office, in the common areas and in the catering area
- each team will have to make hydro-alcoholic gel available in each box.
- each participant will have to bring his/her own mask(s).
- Wearing the recommended mask in private areas and stands if members of the same group are exclusively present.
- Wearing a mask is compulsory in all common areas and private areas (including the pit lane except for people wearing helmets and/or balaclavas).
- no administrative checking: upstream email verification and issuance of licenses, electronic signature of waivers of appeal
- no physical briefing: the briefing is sent by email with electronic signature following the meeting
- if a speech in front of the drivers had to be made, it would be made outside with sound and respect of distances
- no organized gathering of participants, and respect of distances between participants throughout the weekend
- outside podium with respect of the distances
- catering protocol: meals served by plate, table for 6 people and respect of distances

Mr. Benoît ABDELATIF is appointed by the Organizer "Mr. COVID 19" for this event. He will ensure that the measures are respected.

I, the undersigned,
certify that I have read the health protocol above, certify that I have not shown any symptoms and have not been in contact with an infected person in the 14 days prior to my arrival on the circuit, and release M3 and the ACO from all liability.
